

Department of Land Economy Mentoring Scheme

Ian Ellingham, PhD, FRAIC

Associate

Cambridge Architectural Research Limited

Dr. Ian Ellingham has been involved in real estate development and management with a variety of organisations, and for his own account. Projects include a range of office, industrial and commercial buildings; and he has managed the development of numerous housing projects.

His qualifications include a Master of Business Administration from the Western University (Canada), as well as an MPhil in Land Economy, and a PhD in Architectural and Urban Studies, both from Cambridge. He is a Fellow of the Royal Architectural Institute of Canada

He has been active in research, concentrating recently on decision-making and on the human response to buildings and urban spaces. He has been extensively published in industry, popular and academic journals. His books include:

Understanding Ugly: Human Response to Buildings in the Environment, (2020) Corinivm-Peregrini Media.

100+25 Years: OAA Perspectives on a Quarter Century, (2014) Ian Ellingham and Gordon Grice. Ontario Association of Architects.

Whole Life Sustainability, (2013) Ian Ellingham and William Fawcett. RIBA Publishing

New Generation Whole-Life Costing, Property and Construction Decision-Making Under Uncertainty (2006) Ian Ellingham and William Fawcett. Taylor & Francis

He divides his time between Cambridge and the Niagara area of Canada.
