

Department of Land Economy Mentoring Scheme

Sebastian Stachowski

Founder & CEO, Lion Environmental

Initiator, REMEDy Conference

For several years now, I have had the privilege of leading Lion Environmental as its founder and CEO. During this journey, I've steered the company through a remarkable period of growth and transformation, propelling us from a modest EHS consultancy to a thriving ESG consultancy. One of the highlights of my journey has been the initiation of REMEDy, an annual conference dedicated to addressing soil and groundwater contamination issues.

My work extends to various fronts, including active involvement in Poland's energy transition, managing contaminated land, contributing to large infrastructure projects, and enhancing the ESG performance of companies. Drawing from my extensive experience working with leading technical consultancies in the past, I've cultivated the expertise and knowledge necessary to deliver top-tier consultancy services.

My unwavering commitment to upholding the highest standards, combined with the dedication and expertise of my exceptional team, has propelled Lion Environmental to impressive growth and success. Today, we are proud to be recognized as one of the regional industry leaders.

As an environmental and social entrepreneur, I take pride in being the driving force behind Lion Environmental, a consultancy that is more than just a business venture—it's a commitment to making a positive impact. Alongside my dedicated team of subject-matter experts, we actively participate in Poland's energy transition, working towards a more sustainable future.

My journey has been shaped by experiences beyond the corporate world. With a background in humanitarian work, I volunteered for the Polish Red Cross after the Russian full-scale invasion of Ukraine in February 2022. During this time, I was involved in coordinating and executing aid efforts for Ukrainian refugees entering Poland from conflict zones. Additionally, I had the privilege of testifying before the United States Congress on issues related to human trafficking and refugee safety, emphasizing the importance of our collective responsibility in safeguarding vulnerable populations.

At Lion Environmental, we aspire to guide industry leaders in their sustainability journey by incorporating best ESG practices. Together, we are committed to making a meaningful difference in the environmental and social landscape, and we look forward to the opportunities that lie ahead.
